Funds have been reserved for those projects selected to move to a final application. Final applications are due at OHFA no later than 5:00 pm on November 22. Applicants must have successfully completed the review process and be presented to the OHFA Board for approval no later than March. Any applicant who does not move quickly through the review process may have the reservation rescinded.

Projects involving rehabilitation that are not invited to submit a final application may resubmit the projects should OHFA have a Spring Round. Developers should carefully review the 2016 Consolidated Gap Guidelines to ensure a Spring submission meets the requirements of a final application.
