Project Narrative

City: Oberlin

County: Lorain

Oberlin Senior is a proposed 40 unit multifamily rental housing development, affordable to low to moderate income seniors. The development will co-locate and partner with an existing, locally owned nursing home provider to offer a continuum of care community, with conscientious design and connections to services allowing seniors to age gracefully in place. Partnerships with local service agencies, along with the adjacent Welcome Nursing Home, will allow the development to offer services typically associated with high-cost market-rate senior communities, such as: Job raining, placement, and financial literacy education; health promotion, nutrition, and wellness programs; meal delivery; transportation; and on-site medical consultation and administrative services.

The development offers 34 one bedroom and 6 two bedroom units in a secure elevator building, with a range of amenities geared toward aging in place including:

- An on-site clinic space to accommodate specialist consultations and exams, especially for those nanaging chronic conditions
- Communal and meeting space for social, educational and other programming, as well as informal community space, such as a coffee bar and patio
- On-site community gardens and walking path which can be used to access a public walking/biking path to the west
- Healthy indoor environment created through exceeding green design standards and healthpromoting management policies (no smoking, etc.)
