

**Exception Request Form**  
2022 Multifamily Funding Programs

The Office of Multifamily Housing, Development Division establishes and administers policies for the development of affordable multifamily housing for the benefit of the public. Any request for an exception to program requirements must be submitted in advance of the relevant program application deadline and will be considered only for those items specifically noted on this form. Exceptions will not be considered for competitive criteria.

Instructions:

1. **Send a separate form and email for each individual Exception Request**
2. Send this form and all supporting documentation by email to: [ExceptionsPPD@ohiohome.org](mailto:ExceptionsPPD@ohiohome.org)
3. Name the file and title the email as follows: ProjectName – ExceptionType.pdf
4. The total size of all attachments may not exceed 20MB (you may send zip files if needed)

## Programmatic Exception Guidance

For each of these exceptions, please refer to the [QAP](#), [Multifamily Underwriting Guidelines](#), [BGF Guidelines](#), or [Frequently Asked Questions](#).

### Zoning

Developers shall plan for reasonably foreseeable contingencies and hindrances to obtaining zoning. Local zoning meeting cancellations due to inclement weather may not be considered as an extreme, unforeseeable event.

### Competitive Applications Limitations (9% HTC only)

**Inexperienced partners** who have received one HTC award but not yet received Form 8609(s) for the project may seek an exception to the competitive application limits if they obtain an experienced development partner. OHFA retains full discretion in evaluating these exceptions; applicants are strongly encouraged to consult with OHFA and submit these requests early in the development process. OHFA reserves the right to establish benchmarks which must be met under these exceptions. Acceptable documentation may include references and contact information from other Housing Finance Agencies regarding Housing Credit Projects completed in other states.

### Resyndication

Developers must provide a narrative detailing why an allocation of competitive credits is necessary to adequately address the needs of the project, and why an allocation on non-competitive credits would not be adequate. If the need is related to current physical condition of the property, supporting documentation must be provided. This documentation can include photographs, existing floor plans, or other third-party documentation evidencing need. A Physical Capital Needs Assessment alone will not meet this requirement. Development will consult with OHFA's Compliance Division regarding inspection history.

### Limits on HCGF Funds

Developers must provide a narrative detailing why the project cannot be successful without an additional award of HDAP funding. Simply having a gap in the financing or a large scope of work is not sufficient justification.

### Related Party Acquisitions – HDAP

Exceptions may be granted if the applicant recently purchased the property with the expectation of seeking OHFA resources to conduct rehabilitation; OHFA will consider any improvements made to the property between the time the property was purchased and the submission of the application, if adequate documentation is provided to support the cost of those improvements. Acquisition costs may be considered on a case-by-case basis.

### Developer Fee – BGF

BGF Applicants must request an Exception Request and receive approval to use a developer fee of 25 percent. The additional fee amount above 20 percent must be put back into the development as GP capital contribution or deferred developer fee. The additional fee is not permitted to be put back into the development in the form of a seller note. If the additional fee is put back in as deferred developer fee, it must be repaid within the 15-year timeframe.

Justification for the increased developer fee must be included with the request, both in the narrative section below and with supporting documentation. OHFA reserves the right to request additional information, as well as to deny the request based on the justification provided.

### Justification

- For each category selected on page 2, describe your justification for requesting the exception. Be as specific as possible and describe what actions you will take to best further the intent of the requirement.
- Provide supporting documentation as necessary to justify your request.

## Section 2: Design Exceptions

All requests for design exceptions are due prior to the applicable application deadline, *with the exception of the following which may be submitted with the application*:

- Developments utilizing federal or state historic tax credits; or
- Developments applying for 4% tax credits only (non-BGF); or
- Existing multifamily rental rehabilitation developments seeking an exception to minimum unit size and/or minimum bedroom size requirements.

In the above cases, the Exception Request form for these items must still be completed but shall be submitted with the application instead of in advance, physically attached to the preliminary plans.

For each category below, select all items you are seeking an exception for and use the narrative space below to describe the reason for the request and the actions you will take to best further the intent of the requirement.

Provide supporting documentation as necessary to justify your request including plans, elevations, site grading, or any other drawings that give context to the request. Refer to the [Design and Architectural Standards](#) for further requirements and details.

The OHFA staff architect will review requests and make a recommendation to the management team to accept, deny, or modify the exception. A final determination will be made by OHFA by the date indicated in the applicable program calendar.
