

### **Amendment to the Capital Funding to End Homelessness Initiative Guidelines**

On November 19, 2014, the OHFA Board approved an amendment to the CFEHI Guidelines to allow three application submissions for each of the eight urban continua.

Prior to the amendment, the program restricted the eight urban continua to submit two applications. By restricting the continua to two applications, small repair projects that could move forward quickly are forced to wait until all applications, development and repair are ready for submission.

To alleviate this burden on the small repair projects, OHFA amended the program guidelines.

To ensure all three applications are not submitted on or near the program deadline of June 30, 2015, each application shall be submitted according to the following schedule:

- **First application deadline: January 9, 2015**
- **Second application deadline: March 31, 2015**
- **Final application deadline: June 30, 2015**

The Capital Funding to End Homelessness Initiative was created to provide a one-time capital boost to local Continua of Care to assist with their strategies to end homelessness. Funds for this initiative come from the Ohio Development Services Agency (ODSA) and OHFA.
