

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to the U.S. Department of the Treasury. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to the U.S. Department of the Treasury must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 45th day following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.

	QTD	Cumulative

1) Number of Unique Borrowers Denied Assistance or Withdrawn from Program will not balance cumulatively as a result of homeowners moving within program states (to approval, for example).

2) There is a difference of \$7,755,000 between the QRP and QFR for cumulative "Total Assistance Provided to Date" due to the QFR having the entire HSA amount captured whereas the QPR has only captured the amount of potential earned outcomes. There is a \$1,050,000 cumulative difference QoQ on the QPR due to prior quarter cumulative HSA of \$7,350,000 being reduced by \$105,000 (\$7,245,000) due to changes in eligible outcomes plus the addition of new outcomes in the amount of \$945,000 totalling \$1,050,000.

3) Borrower Race "Black or African American" had a decrease of 1 QoQ as the homeowner changed their classification to "Information Not Provided By Borrower" causing this category to increase by 1. Co-borrower Race "White" had an increase of 1 and "Information Not Provided by Borrower" had a decrease of 1 due to the homeowner electing to report their race QoQ. Sex "Male" increased by 1 and "Information Not Provided by Borrower" decreased by 1 as a result of the homeowner electing to report QoQ.

4) 792 homeowners did not report household size quarter to date. 1967 homeowners did not report household size cumulative to date. Counselor Direct identified an error whereas this data was not being reported. It has been corrected. Future reports we anticipate will reflect household sizes accurately.
